Orion releases highlights of 2009 voyages on DVD

Capturing the essence of Orion's '*paths less travelled*', Orion Expedition Cruises has just released a DVD covering expeditions to the Kimberley, Arnhem Land, Papua New Guinea and Antarctica, including an overview of the award-winning ship, onboard facilities, accommodation and her expedition crew.

The DVD footage examples the type of dramatic landscape vistas and cultural interaction guests can expect from an Orion expedition, plus highlights ship-board indulgences (such as Serge Dansereau-inspired degustation menus) and Orion's approach to environmental sustainability.

A manageable ten minutes in length (with a convenient menu to let you select individual sections) this DVD leaves you with a good understanding of what to expect yet wanting to know even more.

And more there is. Backed up with a full colour brochure depicting the major regions visited by Orion and supported with a handy reference guide detailing all voyages with destination notes, calendar of sailings and pricing this combination is the perfect research tool for Orion's expeditions.
